EDUCATION

National Institute of Technology

Bachelor of Technology in Information Technology

CGPA: 7.8

Kurukshetra, Haryana

June 2026

EXPERIENCE

Leap Finance

Software Engineering Intern

Bengaluru, Karnataka

January 2026 – June 2026

- Led the migration of core backend services to Java 21 and Spring Boot 3, and optimized Docker deployments.
- Built a unified CRM microservice by consolidating legacy services, integrating AWS Secrets Manager and managing PostgreSQL schemas via Liquibase.
- Developed WhatsApp group management APIs and engineered an in-house API testing and execution platform , reducing operational costs by eliminating expensive third-party subscriptions.
- Established Bitbucket CI/CD pipelines and resolved 100+ SonarQube code smells and bugs, significantly improving overall system reliability.

PROJECTS

VidVault | [Link](#) | [GitHub](#) | *Express.js, React, Supabase, Vercel, Render*

June 2024 – July 2024

- Developed a scalable video streaming platform with a custom player, trending pages, and personalized feed algorithms.
- Integrated Supabase for secure data management and automated workflows, eliminating local database dependencies.
- Configured continuous deployment pipelines and cloud application hosting across Railway, Vercel, and Render for high availability.

EduTracker | [Link](#) | [GitHub](#) | *Next.js, Tailwind CSS, MongoDB*

June 2025 – July 2025

- Built a modern, fully responsive student productivity and attendance tracking app with Next.js App Router.
- Implemented secure authentication with credentials and Google OAuth via NextAuth.

AI Chat App | [Link](#) | [GitHub](#) | *Flask, Groq API, JavaScript*

June 2023 – July 2023

- Built a real-time AI chatbot using Flask with dynamic conversation context handling and state memory.
- Integrated Groq API (LLaMA 3) to simulate a custom AI persona with high-speed inference responses.

SKILLS

Languages: Java, Kotlin, Python, JavaScript, C/C++

Backend Frameworks: Spring Boot, Node.js, Express.js, Flask

Databases: PostgreSQL, MySQL, MongoDB, Redis, Supabase

Cloud & DevOps: AWS (S3, Secrets Manager, STS), Docker, Bitbucket Pipelines, Google Cloud Platform, Liquibase

Frontend: React.js, Next.js, Tailwind CSS

Tools & Architecture: Git, GitHub, REST APIs, Microservices, Hibernate/JPA, Maven

ACHIEVEMENTS

Problem Solving: Solved 200+ questions on coding platforms (LeetCode, GeeksforGeeks).

Adobe India Hackathon: Cleared 2 rounds in the national-level Adobe India Hackathon.

Flipkart GRiD 6.0: Successfully cleared 2 rounds of the Flipkart GRiD 6.0 competition.
